Air Conditioning Contractors Association Central Florida Chapter

Mission Statement

To constantly strive for improvement in the design, engineering, installation, operation and service of heating, cooling, and refrigeration systems.

To establish a system of instruction and education for those engaged in the above fields.

To establish ethical standards for the conduct of the heating, cooling and refrigeration business.

To promote the acceptance by the general public of heating, cooling or refrigeration systems complying with the high minimum standards or system design.

To establish and maintain a library of reference material for those engaged in the heating, cooling or refrigeration business.

To cooperate with other trade associations and groups for the betterment of the Construction Industry.

To promote the interchange of information among its members.

Code of Ethics

All members of the Air Conditioning Contractors Association of Central Florida agree to observe and be bound by the following "Code of Ethics" of Business Standards:

- Instill the highest respect for our profession within our community;
- Necessitate strict compliance to all ordinances and laws prescribed by Federal, State, County and Municipal Governments pertaining to our business;
- To Maintain a clean, respectable, well identified place of business commensurate with the high standards of our profession;
- Engineer, design, install and service warm air heating, air conditioning and refrigeration systems in accordance with recommended practices;
- Generate an understanding of proper equipment selection that would assure the customer of safe, dependable, and comfortable performance;
- Resolve to uphold the highest ethical standards of selling, advertising, pricing, installation and service guided by the principles of honesty and integrity;
- Increase our efficiency through educational programs to contribute a portion of our time and thought to the advancement of our industry through our association;
- To promote the growth of the industry through closer cooperation between ACCA contractors and the manufacturers, wholesale and utilities serving our industry;
- Yield an excellent policy of customer relationship and service and uphold the policies and warranties of the manufacturer.

INTEGRITY is to adhere to a code of moral values with uprightness, honesty, and sincerity.
